

Species comparison 2015 and 2016 based on increase/decrease by Jim Barker

All these figures are compiled from actual counts on the transects that were walked in 2015 and 2016.

Below are the top 5 butterflies for increased percentage and the bottom 5 for decrease.

Of the 31 species that occurred in both years 15 went up and 16 went down and the total numbers increased by 7%.

Species	2016	2015	Increase	% Up
Brown Argus	21	4	17	425
Grayling	49	23	26	113
Orange Tip	156	83	73	88
Large White	1305	713	592	83
Red Admiral	777	442	335	76

Species	2016	2015	Decrease	% Down
Clouded Yellow	2	23	21	91
Small Skipper	122	352	230	65
Wall Brown	35	76	41	54
Brimstone	38	82	44	54
Peacock	338	553	215	39
